

Google Ads Search Campaign Plan – Haldiram’s

This project outlines a **performance-driven Google Search Campaign** for Haldiram’s, designed to capture high-intent demand across snacks, sweets, and gifting categories. The campaign leverages **intent-based segmentation, AI-powered bidding (Maximize Conversions), and structured keyword clustering** to maximize conversions and return on ad spend (ROAS).

2. Market & Consumer Insight

Search Behavior Analysis

- Users searching “buy sweets online” or “namkeen delivery” show transactional intent
- Seasonal spikes observed during Diwali, Rakhi, weddings
